Testimonials

CYCLO P'TITSOIN - 8 MIXTE

« 1 year ago, we set ourselves the crazy challenge of taking part in the Škoda 24 Hours Cycling of Le Mans. We were all road bike novices and had everything to learn. Once we'd registered, it was one thing after another: building the team, finding partners and bikes, organisational meetings, setting up the association, training alone or in groups... Today, the adventure is over, and we're already nostalgic, but with our heads full of memories. It was an emotional weekend, and a huge sporting challenge that we're proud to have met ! »

NOEMIE ROCHARD - 6 MIXTE

« THE BUGATTI CIRCUIT: Riding on a racetrack is really something special. The road is wide, the corners are very curvy and the grip is fantastic. Not to mention the Dunlop, which you love and hate at the same time. In short, riding on this legendary 24 Hours circuit of Le Mans is a real opportunity ! »

LÉO REVOL - 8 HOMME

« Imagine racing on the Bugatti circuit at the 24 Hours of Le Mans against 600 other teams... No, I'm kidding...

But just imagine, you're warming up and waiting for your buddy to return to the pits so you can take over. Whether it's 12am, 8pm or even 3am, you've got the cocktail of excitement, adrenalin, stress, apprehension, pleasure...

Until you take your first turns and you're in the pack. Then you're focused, concentrating on the guys with you, the relays, the restarts at each bend, the speed, not farting, putting a cartridge in »
